WHAT WE DO

Medical Teams International works to restore health as the first step to restoring hope. Because every person deserves the chance for a better life. Because every person – no matter where they are or how desperate their situation – matters.

For the past 40 years, Medical Teams has responded to natural disasters and humanitarian emergencies by mobilizing volunteers, engaging in-country health professionals and distributing medical supplies and medicines. We assure fragile communities thrive after we're gone by training local volunteers to seek out their sick neighbors and teach families about hand washing, disease prevention and good nutrition. We strengthen local health systems by training medical staff to improve the quality of medical care.

Domestically, our Mobile Dental Program addresses the urgent dental needs of marginalized families. Our eleven Mobile Dental vans travel to the areas of greatest need, providing emergency and restorative care.
