AVID Class Guide

1) How can you serve people in crisis locally and globally as a student? Explain what opportunities and limitations you have as a student. Justify any ideas for service based on needs you see in the exhibit.

2) Write down an idea for one technological innovation that would benefit refugees. Defend your idea. Point out any pitfalls. If you can, draw your innovation.
3) Imagine what life was like in Syria before the civil war. Many young people had to leave college for their safety. Why will this make it difficult for Syria to recover after the war?

4) In the future, how can you serve people in crisis? What might you study in college to achieve these service goals?

5) What careers are you interested in that help people in crisis?
