

A large indoor event space, likely a convention hall or arena, with a high ceiling featuring exposed wooden beams and numerous stage lights. The room is filled with people seated at round tables, and a stage is visible on the left. The lighting is predominantly red, creating a warm and dramatic atmosphere. A large screen in the background displays a presentation with the text "guest's story" and several images. The overall scene depicts a formal fundraising gala.

# 46 Years of Forging a Way

Medical Teams International works with partners to boldly break barriers to health and restore wholeness in a hurting world.

When others retreat, we press in. Because human dignity demands access to medical care.

On April 11, 2026, we will gather at AVENUE Portland with local business leaders, health care partners, and our generous donors to highlight the life-saving work Medical Teams is providing worldwide. The night begins with cocktails and an opportunity to immerse yourself in the reality of our work. The Gala continues with a chef-crafted meal, Oregon wines, and an opportunity to deliver life-saving care through your generosity.

The world is experiencing the largest refugee crisis in history. With 46 years of experience, we are uniquely positioned to address these challenges by providing primary and emergency medical care for people in crisis.

Together, with generous sponsors like you, **we can make a pathway to healing.**

## The Impact

### EVERY 12 SECONDS

people facing crisis and vulnerability received medical treatment from Medical Teams International.

### NEARLY 50,000 BABIES WERE BORN UNDER OUR CARE

Medical Teams delivered a baby every 10 minutes in 2025 in some of the world's toughest crises.

### COMPLETED 2 MILLION MALNUTRITION SCREENINGS

Over 93% of children treated for malnutrition recovered under our care.

# Partnering With Us

Your partnership with Medical Teams will demonstrate that your company is a force for good to your customers and employees. Your company's brand will be showcased to a large group of our loyal donors who are esteemed corporate and community leaders, medical professionals, and philanthropists. Your support will continue to bring life-saving care and make an impact both locally in the Pacific Northwest and worldwide.

# Where We Serve

Our highly trained medical teams save lives, alleviate suffering, and restore human dignity by offering comprehensive medical care and mental health services to people experiencing crisis. Our teams are made up of expert and experienced medical professionals from the regions where they work.

In Tanzania, Ethiopia, Sudan, Ukraine, and Uganda, we provide basic health care to refugee and migrant communities. Here in the United States, our Care & Connect Mobile Health program offers free emergency dental services and health screenings to people without other access to health care.

## **REFUGEE AND DISPLACEMENT CAMPS**

We are the sole health care provider in many refugee settlements across East Africa, serving tens of thousands of people with each clinic. As much as we wish these situations were very short-term, they often turn into permanent communities — we've had a presence in some of these camps for decades because the needs continue growing.

## **COMPLEX INTERNATIONAL EMERGENCIES**

On the edge of conflict or in the wake of disaster, we have the experience and expertise to show up amid an emergency, provide urgent care, and leave the community better than when we found it.

We are committed to building up teams of local medical professionals, equipping clinics with supplies, and investing in health systems so people have access to care long after we're gone.

## **THE UNITED STATES**

Every year, we host hundreds of mobile medical and dental clinics around the Pacific Northwest, providing free care to anyone who needs it.

We send our state-of-the-art medical buses to rural communities, downtown city streets, and suburban shopping centers to make health care as accessible as possible.
